

Kera-ton

Plastic just won't cut  *it.*

The Problem

150million

Tons of single-use plastic
is wasted each year.

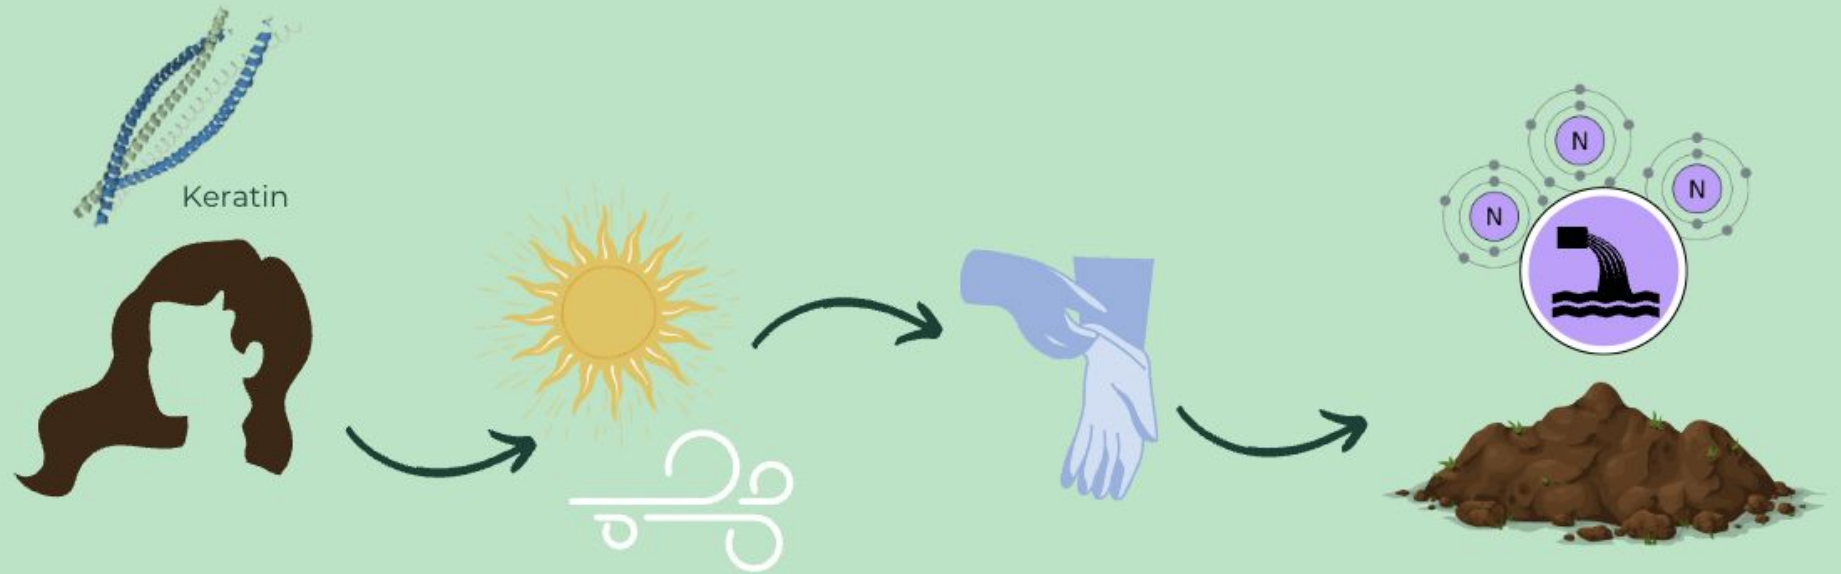

71%

People want to travel
more sustainably.

80%

Major hotels commit to
CO2 neutrality.

Why Hair?

The Solution

Product

travel sized

0.5in
0.25in

3in

SHAMPOO

easy to
hold

bottle

made of
hair bioplastic

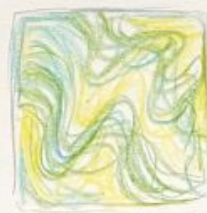

cap

debossed print

SHAMPOO

alternative colors / patterns

Business Model

Collect

Waste is collected
from barbershops
“go green”

Manufacture / Distribute

Manufacturers
convert waste
into bioplastic

Products are
distributed to
partnered hotels

Production

Financials

Cost to manufacture one bottle

\$0.27

Price of one bottle sold

\$0.35

Profit

\$0.08

An average hotel goes through 200,000 bottles of shampoo/conditioner per year.

$$200K * \$0.08 = \$16,000$$

Financials Pt. 2

If we provide bottles to 100 hotels, we predict a yearly revenue of:

$$100 * \$16,000 = \$1,600,000$$
