Before the Visit: Memory Submission

When booking, the couple submits:

- A meaningful photo capturing their special memory.
- A few keywords describing the mood (e.g., "warm sunset," "first snowfall," "cozy laughter," "sea breeze").
- They can also hint at any favorite scents or emotions they want to capture.

This helps Aromnē prepare a tailored sensory experience before they even arrive.

VIP Lounge Experience with VR /11

Seeing Your Memory in VR (3-7 minutes)

A personalized exploration of your memory, as well as an educational space for you to start envisioning your memory as a fragrance.

- You and your partner will have a VR headset where you can move around your recreated memory
- Recommended scents are already placed around the scene for your inspiration and education
- It's more effective to enhance a memory with scent when you are given this form of direction - hopefully it creates a stronger decision process when deciding how you want to craft your scents together in the fragrance-making portion.

Creating Your Fragrance

Take your experience out of the headset and into a bottle. Capture your memory as a fragrance.

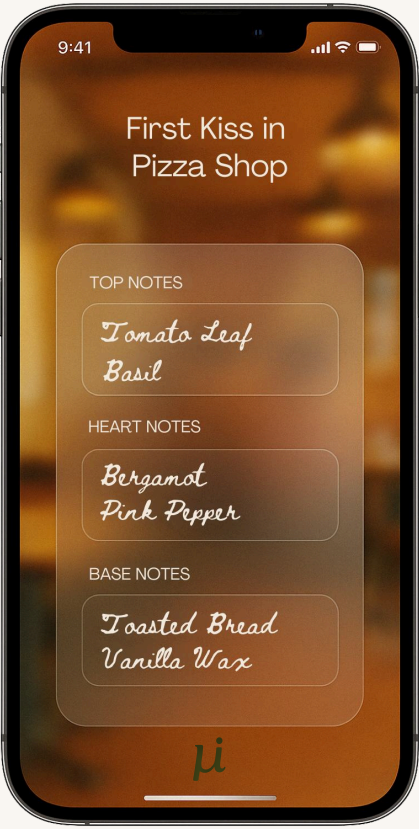

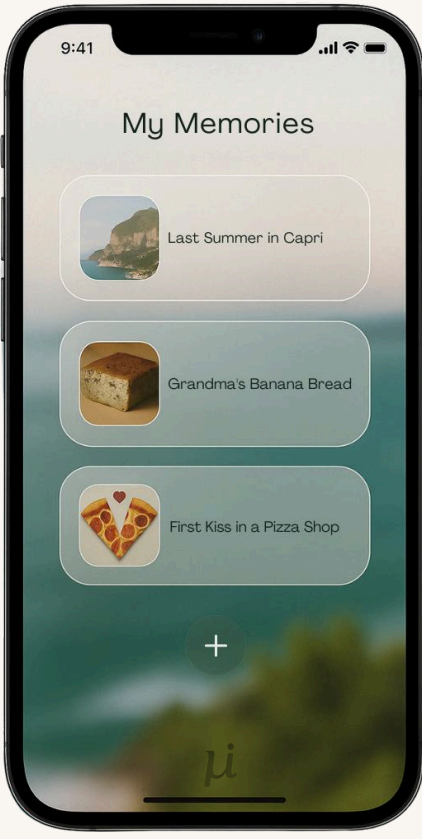

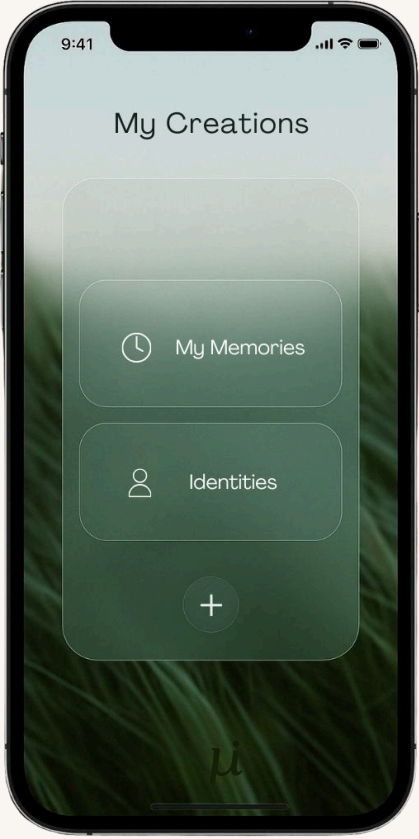

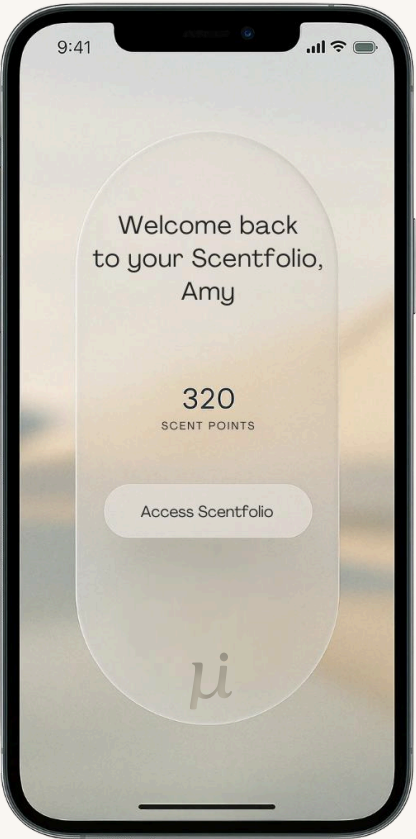

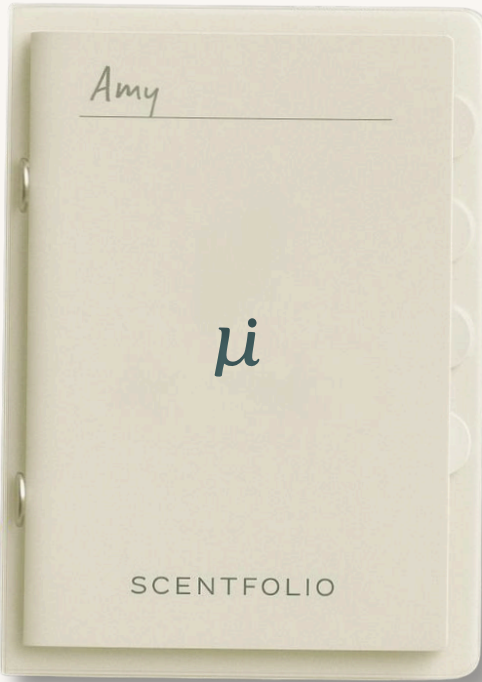

- After experiencing this personalized reconstructed world of your memory, you are now able to empowered to start crafting a scent to represent your special memory
- While you are waiting for your bottle to be created, staff will serve you drinks based on your scent from the cafe.

AROMNÈ SCENT DIY STATIONS

14 Stations Total

(Open Floor - 5 Core Scent Themes, 2 Curated Scent Themes)

These are the “core memory builders” and the first stop on most journeys. Each is themed and accessible with tactile elements and multisensory cues (sound, texture, taste, etc.).

5 Core Scent Themes

Year round Fragrance Families

- **ROOTS:** Woody, Gourmand, Balsamic
- **BLOOM:** Floral, Powdery, Soft Aromatic
- **SPARK:** Spicy, Resinous, Incense, Musk
- **WAVE:** Aquatic, Green, Osmotic
- **ZEST:** Citrus, Fruity, Bright Greens

2 Curated Scent Themes - Geographical and Cultural

Bi-seasonal rotation: 6 curated themes per year, each lasting ~2 months

Seasonal Pods that allow for more niche and regional scents to shine and be showcased.

Allows for a deeper dive into specific smells that visitors can discover.

AROMNĒ SCENT DIY STATIONS

AROMNĒ DRINK PAIRINGS + MULTISENSORY ELEMENTS

- For the 5 Theme (ROOTS, BLOOM, SPARK, WAVE, ZEST)
 - Each person receives 5 small flavored drink shots (infused water or light mocktail—nut-free)
 - Use refillable test tubes
 - Notes Dome Displays: view the raw ingredients and how they smell
 - Small glass domes showcasing preserved ingredient
 - Add scent diffusers inside each dome + subtle lighting.
 - Scent Stamps: Custom stamp for each Domes Display. Stamp and collect it in your “scentfolio notepad”.
 - Subtle ambient sound to set the emotional tone

Scent Personalization
